What is Acutonics?

Acutonics is an approach to healing rooted in Oriental Medicine in which tuning forks, calibrated to match the hertz and tones of our natural universe, help to restore the body to a balanced and healthy state through application on acupuncture points, trigger points, points of pain, and the body's energy fields. Acutonics also addresses the emotional and psycho-spiritual aspects of health, recognizing the whole person.

THE ACUTONICS® SYSTEM: A Harmonic Approach to Natural Health

This sound based therapy was developed 24 years ago. Scientific rigor, extensive research, and years of documented clinical results speak to the efficacy of this modality.

Everything in the universe vibrates, from the smallest particle, to the planets in our solar system, to the billions of stars in the Milky Way Galaxy, creating patterns of geometric waveforms, frequencies, musical intervals, and sounds.

The sounds of the universe are brought into the world of natural health through the use of precision calibrated planetary tuning forks. Acupressure points and chakras provide non-invasive access into these core energetic systems within the body. The planets provide musical intervals, archetypes, psychological depth, and correspondence that help us to fine tune the therapeutic frequencies that are applied to the body.

The Acutonics Institute of Integrative Medicine

The Acutonics® System was developed at the Kairos Institute of Sound Healing, renamed the Acutonics Institute of Integrative Medicine in 2014. The creative and cross-disciplinary way in which the tuning forks, the working frequencies, and the methodological depth is used is unique to the Acutonics System. Through correspondence and sympathetic resonance, the planets have a profound connection to Oriental Medicine, the natural cycles of the universe, and to the Earth itself.

"Sound has the power to heal our wounds, ignite our spirit, change consciousness, and reunite us with the divine harmonies and rhythms of the universe."

Donna Carey, Co-Founder of Acutonics®

ACUTONICS CLASSES

Dallas/Fort Worth Acutonics provides Certified Acutonics classes for both the professional, who wants to expand their practice and earn continuing education credits, and the general public. Our classes range from one day workshops for self and family care to three day seminars. Everything is taught in the Acutonics healing system that you need to know to use sound healing, including acupuncture points. None of the classes or workshops assume that you have any prior knowledge of

Oriental Medicine or sound healing. All the workshops and classes contain highly supervised, practical, hands-on sessions, so you are ready to practice when the class is completed.

Continuing education credits are available for acupuncturists through The National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM) and accepted by Texas Medical Board of Examiners. Massage and bodywork practitioners have found therapeutic effects on deep muscle tissue, circulation, body pain and relaxation of mind and muscle through stress reduction.

In a Sacred Geometry Acutonics session, acupuncture points are activated with tuning forks in a specific pattern and sequence which creates a three dimensional sacred geometry pattern on the body and in the energy fields. It is designed to evolve the human to a higher level of consciousness over time and helps you discover your passion and puzzle piece in life. These patterns seek to balance the two main emotions in life from which all other emotions and imbalance occurs: fear and love. We seek to open your heart and allow you to operate from the heart. A Fibonacci tuning fork session is for creative manifestation using the math in earth nature. Energetic cord cutting /cauterization enables healthy boundaries with past or present relationships, organizations and events.
